Copper

Products:	**Copper Tube and Pipe, Coil, Sheet and Plate, Flat Bar, Foil, Copper Fittings, Wire.** **Other products available including:** **Oxygen Free, Beryllium, Tungesten & other copper alloys.**	
Standards:	All Copper products can be manufactured to the following standards:	
	European - EN Standards	Japanese - JIS Standards
	Australian - AS Standards	British - BS Standards
	New Zealand - NZS Standards	German - DIN Standards
	American - ASTM Standards	
Applications:	Tube and Pipe for Water, Gas, Sanitation, Refrigeration and Air Conditioning.	
	Applications also include: Roofing and Flashings, Guttering, Decorative and Visual, Fabrication, Precision Engineering and more.	
Special Notes	The copper market is extremely volatile and the purchase price for raw material can change greatly in just a day. Because of this most suppliers of copper tube/coil allow a large buffer in their pricing. Tropex Exports quote direct from the maufacturer based on the current daily price which means you can be confident that you are getting the best deal when you purchase.
