

## GIB® GRABBER® - HIGH THREAD

- A **coarse** high-thread screw for fixing into timber with superior holding power and ease of penetration.
- 32mm x 6 HT approved for use in the GIB® Ezybrace® System.

## GIB® GRABBER® - SELF TAPPING

- A **fine** self-tapping thread needle point screw for fixing GIB® Plasterboard to 0.45 – 0.95mm thickness light gauge metal or timber.

## GIB® GRABBER® - WAFER HEAD NEEDLE TIP

- A low profile, large head fastener to fix light gauge metal to timber.
- Approved to fix metal ceiling perimeter channel.
- Recommended to attach GIB® Rail.

## GIB® GRABBER® - PANCAKE HEAD DRILL TIP

- A 13mm screw with a self drilling tip to fix light gauge metal (up to 2mm thickness) to light gauge metal.
- Ultra-low profile head for connection beneath GIB® Plasterboard.

## Nails designed for fixing GIB® Plasterboard

Chequer head keys in stopping compound

Bugle head design avoids paper break

Passivated coating protects against corrosion

Griptite annular grooved to improve hold

Suitable for use in GIB® systems

### GIB® NAIL

- For use in GIB® Systems.
- Great for DIYers.

### GIB® BRACELINE NAIL\*

- Patented extra large washer head is suitable for bracing. It's passivated coating protects against corrosion.
- Tested for use with 10mm GIB EzyBrace® Systems.

\* GIB Braceline® nails were required for GIB EzyBrace® BL systems designed prior to June 2011. GIB Braceline® nails can still be used in place of GIB® Grabber 32mm x 6g screws in post June 2011 GIB® Ezybrace systems requiring 10mm GIB Braceline®. **Note: Not suitable for 13mm GIB Braceline®.**

**For best fixing practices and to select the correct fastener please consult the GIB® Site Guide that can be found on our website [gib.co.nz](http://gib.co.nz) or call our Technical Helpline on 0800 100 442.**

# GIB® Fasteners

GIB® Nails and GIB® Grabber® screws are the recommended fasteners for fixing GIB® Plasterboard

Designed for the professional interior fixer

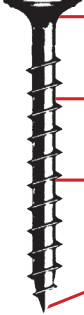

What makes GIB® Grabber® Screws Better?

- No2 Philips recess that is deep, positive and non-sticking

- Unique scavenger head prevents burrs when seating
- Sharp threads are heat-treated for hardness
- Gold passivated and zinc plated finish prevents corrosion
- Extra sharp point for fast penetration

Use full GIB® Systems.

GIB® Systems are not generic. It is important to use only GIB® branded components where specified and to closely follow the specified design details and construction practices, so you can be confident the desired level of performance is achieved on site.

If it doesn't say 'G'  
it's not GIB® GRABBER®
