4L tin (net content)

6. Shelf Life

12 months in unopened packaging, when stored in a cool and dry place at a temperature between +5°C and +25°.

7. Application Instructions

Method:

Wear chemical resistant gloves, safety goggles and protective clothing

- Shake well before mixing
- Mix one part Metalex Wood Cleaner with four parts water
- Cover any areas you want to protect.
- Sweep surface clean.
- Wet surface with water.
- Apply product with a garden sprayer, brush or roller.
- Work into the wood with a nylon brush. Do not use a wire brush.

- Keep surface wet. Allow the solution to stand for 20-30 minutes.
- Rinse thoroughly.
- Allow wood to dry 48 hours before finishing.

NOTE: Do not mix with chlorine bleach or other household cleaning products. To do so can result in release of highly toxic gases. Mix using only plastic containers in a well-ventilated area.
Surfaces may become slippery when wet. Do not walk on treated surfaces during the application process.

WARNING: This product is designed for outdoor use. Indoor application may cause odour.

8. Health and Safety Recommendation

- Apply usual industrial hygiene practises.
- Please refer to the MSDS for more detailed information.

Remark

The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments.

If any clarification is required, please contact Holdfast Technical Services or email sales@holdfast.co.nz.
